

Advancements in AGN, Galaxy Cluster and IGM Research

A National Conference jointly Organized by IUCAA and Department of Physics & Astronomical Science CUHP Dharamshala

Venue: Dharamshala campus
CUHP H.P India

Dates: 29-31 March 2024

Key Objectives:

- ❑ Galaxy Evolution Processes
- ❑ Gas Flow Processes
- ❑ IGM
- ❑ AGN Feedback

The primary objective of this conference is to bring together astronomers, astrophysicists, and cosmologists, including both early-career researchers and seasoned experts, interested in diverse aspects of galaxy, cluster, and intergalactic medium research. The program will be structured to encourage collaboration and exchange of ideas so as to have long term fruitful collaboration between researchers in Institutes and Universities.

Participation:

(i) By invitation.

(ii) Expression of interest can be filled
by 4th of March 2024 at:
